Contingency planning must be documented in the scenario that an event needs to be cancelled, including communicating the cancellation to patrons. **Implemented**

A reminder of public health measures must be included **Implemented** in the ticketing sales process, visible on the ticket or as an email reminder.

During the event, regularly to reinforce public health **Implemented** messages – use broadcast messages, signage, and staff/volunteers to communicate this information with attendees.

Where possible establish multiple zones within your **Not applicable** event area to limit interaction between groups of attendees. You may consider assigning dedicated facilities for example allocated bathrooms to a specific zone.

Fixed seated areas (for example grandstands)

Ensure seating is clearly labelled to enable seating **Implemented** allocation. Groups who booked tickets together can sit together but they must be spaced at least 1.5m from other groups.

Where seating is not numbered, clearly mark rows and **Implemented** seats that are to be left vacant.
